Madhusthali Vidyapeeth, Madhupur

Jul 2012 – Mar 2019
62%

WORK EXPERIENCE

INTERNSHIP, TetraTrion Technologies Pvt.Ltd, Bhubaneswar

Mar 2024 – May 2024

A MERN stack internship provides hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js.

Frontend Developer, TetraTrion Technologies Pvt.Ltd, Bhubaneswar

May 2024 – Present

As a frontend developer, I design and build responsive and user-friendly web interfaces using React.js and Tailwind CSS. I focus on creating reusable components, managing state efficiently, and ensuring seamless user experiences across all devices.

PROJECTS

Jewellery shop

Aug 2024 – Nov 2024

Designed and developed a **mobile-optimized interface** for an online jewellery store using React.js and Tailwind CSS. Integrated **interactive product displays**, smart filtering options, and an efficient checkout flow to improve user experience. Enhanced site speed and worked with backend developers to enable **real-time synchronization** and smooth API connectivity.

ArogyaPoint (Client Project)

Sep 2024 – Nov 2024

Creating a fully responsive **digital shopping platform** using React.js and CSS, emphasizing dynamic and modern UI design. Engineered core features like **item catalogs**, custom sorting, cart management, and hassle-free payment flow. Prioritized code scalability, **modular component structure**, and device adaptability to maximize user interaction.

Cleantech Mart (Client Project)

Jul 2024 – Nov 2024

Developed **Cleantech Mart**, a sustainable commerce solution built with React.js and CSS, promoting eco-conscious living. Crafted an engaging frontend with **category-based browsing**, eco-product displays, and an intuitive purchase process. Ensured fast load times, **user-centric navigation**, and seamless cross-device compatibility for enhanced customer satisfaction.
