Jan 2025 - Apr 2025

A MERN stack internship provides hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js.

PROJECTS

E-Commerce Website (Jewellery shop)

Aug 2024 - Nov 2024

Developed a **responsive jewellery store** using **React.js** and **Tailwind CSS**, with **reusable components** and **React Router** for smooth navigation. Applied **useState**, **useEffect**, and **.map()** for efficient state, lifecycle, and DOM rendering, while integrating **Redux** for global state management. Used **Axios** for secure API communication and improved performance with React's **Virtual DOM** and **conditional rendering**. Delivered **interactive product displays**, **smart filtering**, and a **streamlined checkout flow**, ensuring **fast load times**, **cross-browser support**, **accessibility**, **and seamless user experience** across devices.

E-Commerce Website (Client Project)

Jul 2024 — Nov 2024

Developed Cleantech Mart, a sustainable commerce solution built with React.js and CSS, leveraging useState and useEffect for state and lifecycle management, .map() for dynamic DOM rendering, and React Router for smooth page-to-page navigation. Crafted an engaging frontend with category-based browsing, eco-product displays, and an intuitive purchase process, while integrating Axios for API communication and ensuring real-time synchronization of product data. Implemented responsive design, cross-browser compatibility, and accessible UI components to deliver seamless cross-device functionality. Optimized performance using React's Virtual DOM, conditional rendering, and reusable components, resulting in fast load times, user-centric navigation, and an enhanced customer experience.

SKILLS

HTML, CSS, JAVASCRIPT, REACT.JS, TAILWIND CSS,-NODE.JS, EXPRESS.JS, MONGODB, BASIC JAVA, GIT, GITHUB

LANGUAGES

ENGLISH HINDI
